PROFILE INFO

Hi, I am Fu-Ting, Li. As a Front End Developer in a software company, I have three years of web application development experience that platform includes Desktop, Mobile Web and Mobile Native; mainly responsible for projects related to Web and Native APP requirements. Familiar with technology stack: React, React-Native, Redux, Github, HTML & CSS, JQuery, Javascript, NodeJS, Express and MongoDB.

WORK EXPERIENCE

FUNPODIUM | Mobile Application Developer

From 2023.01 - Present

- Helping lead the architectural design and development of our next-generation web application (while ensuring seamless collaboration with the UX team) using React and React-Native.
- Collaborating with cross-functional team members on designing and implementing new features.

Gamma Interactive Inc | Mobile Application Developer

From 2020. 11 - 2022.12

- Building deeply interactive reporting interfaces using React-Native.
- Working with product and UX to refine and iterate on specifications as the feature takes shape.

Global B2B Consultancy, Inc. | Web Developer

From 2020.03 - 2020.11

- Maintain continuous attention to technologies in front-end related fields and solve problems with reasonable technical solutions.
- Cooperate with product managers and back-end development engineers to complete requirements.

Dear Human Resources Department,

I am FU-TING LI, a studying student majoring in Web Development at Conestoga College. I am writing this letter to express my keen interest in the Software Developer position. I am a highly focused and self-motivated person, and I am excited that there is an opportunity to showcase my technical skills with your company.

I have engaged in various software projects while serving as a front-end developer in a web development company. The Software Developer position program with your company is very appealing to me, and I will be able to grow my skill and expertise further while working with you. Meanwhile, I would like to bring my work experience and knowledge to your company.

In addition, As a web application developer for three years, in my previous role at the web development company, I was responsible for implementing visual elements and features of both the website interface and mobile App interface. I cooperated smoothly with UI/UX designers and back-end engineers. I am proficient in React, React-Native, Redux, Github, HTML & CSS, JQuery, Javascript, NodeJS, Express, MongoDB and Passport. Moreover, my keen interest in programming helps me find creative solutions to technical challenges and develop visually appealing products. My extensive knowledge of technical standards helps me manage projects efficiently.

Please find my resume and portfolio attached for additional details of my expertise. Feel free to contact me via email & mobile if you have any questions. I look forward to meeting and discussing how we can cooperate.

Thank you for your time and consideration.

Sincerely,

Fu Ting Li
